The *Star Wars* galaxy is full of creatures strange, wonderful, and dangerous, and now they're ready for your campaign, too! *Alien Anthology*, the latest accessory for the *Star Wars Roleplaying Game*, offers the best in clever aliens and rampaging monsters, and art director [Sean Glenn](#) has provided us with a handful of images from the book to leap from the screen to your printer. This free gallery features the work of talented artists Sam Wood, John Gallagher, and Adi Granov.
